Dear Br. Phillips.

41 I have paid your bill at the P. O. as you desired — $3.45. Also attended to your exchanges, & suppose you receive them. I was obliged however to say that you would pay the difference.

I know nothing about the Recorders changing hands. it is a powerful engine. I wish I could be more out spoken in certain directions, but I am not exactly free you know, having to my stand point another man's capital. Your last Reporter is a capital affair, — shall see what I can do with it, — shall publish about the whole of your article in the New England.

Wife & children are at Weathersfield, went last week, the boy, (a fine fellow) being then only three weeks old. Quite smart? They will stay there some three months & I may be there half the time. Love to your family

Affectionately yours E. D. Moore.
